Its Not Just Moving, It's Moving & Storage!

Many times when organizations relocate, there is excess inventories of furniture, equipment, technology and miscellaneous effects. In all too many instances, companies turn to the management of their new buildings to provide them with storage. At a cost that is normally 50% of their office rent, at first glance it may seem like a bargain. A more cost effective option may be to seek storage from your commercial mover. Eagle Transfer has a quarter of a million square feet of storage space at its headquarters, "The Bloomingdales Building" in Long Island City. Originally designed

for Bloomingdale's excess furniture inventory, its three tiered custom racking system may be a cost effective option to many organizations.

MOVING TIPS

When your company is relocating, it is always prudent to take small personal mementos with you prior to the move, then bring them to your new office on Monday morning.
